**The Book of Iowa Films** Oct 01 2022 This is the first comprehensive history of films made in or about Iowa. It reflects some twenty years of collecting, lecturing, and talking with some of Iowa's current generation of independent filmmakers. It covers the span from 1918 to 2013 and gives important background information on dozens of high profile films such as the STATE FAIR films of 1933 and 1945, THE BRIDGES OF MADISON COUNTY, FIELD OF DREAMS, and many others. It is designed as a companion for the State Historical Society's blockbuster "Hollywood in the Heartland" exhibition in Des Moines that is scheduled to run at least through 2016. The book has an interpretive essay covering the entire history as well as paragraph length descriptions of each film. A user-friendly feature is the Index of Films, which makes it easy to locate discussions of individual films. Marty Knepper is a featured commentator on video screens in the "Hollywood in the Heartland" exhibition.

The Basis of Everything Jun 16 2021 Before the Manhattan Project, before nuclear warfare and the horrors of Hiroshima and Nagasaki, there was the twentieth century's great scientific quest to fathom the secrets of the atom. It was through that search for the inner workings of matter that a unique friendship was forged, a partnership that defied academic orthodoxy and altered the course of history. Centred on the inter-war years - within the ivy clad walls of Cambridge University's famed Cavendish Laboratory, amid the windswept valleys of north Wales, and in the industrial heartland of Birmingham - The Basis of Everything is the story of the coming of the atomic bomb, and how the unlikely union of two scientists - Ernest Rutherford, the son of a New Zealand farmer, and Mark Oliphant, a peace-loving vegetarian from a tiny Australian hills village - would change the world. The story that bonds Ernest Rutherford and Mark Oliphant is as extraordinary as it is unlikely. They were kindred souls, schooled and steeped in the furthest frontiers of Britain's empire, whose restless intellect and tireless conviction fused in

the crucible of discovery at Cambridge University's celebrated Cavendish Laboratory, at a time when nature's deepest secrets were being revealed. Their brilliance illuminated the sub-atomic recesses of the natural world and, as a direct result, set loose the power of nuclear fusion. It was a heartfelt, enduring partnership, born at the University of Adelaide's modest physics department and then flourishing further in the confines of the Cavendish before ultimately driving the famed Manhattan Project, which produced the world's first nuclear weapons, unleashed to such devastating effect on Hiroshima and Nagasaki. Rutherford and Oliphant were men with a shared devotion to pure science, who, through circumstance and necessity, found themselves betrayed as instruments of wars they detested but were duty-bound to prosecute. Consequently, their influence was pivotal in the last great global conflict the world witnessed and in engendering the thermonuclear threat that has held the planet hostage ever since. Yet their pioneering work also lives on in a vast array of innovations seeded by nuclear physics, from radiocarbon dating and TV screens to life-saving diagnostic-imaging devices. PRAISE FOR THE BASIS OF EVERYTHING In *The Basis of Everything*, journalist Andrew Ramsey has succeeded in telling a story so detailed and compelling that even knowing where it leads does not distract from the journey. Fracture Dec 23 2021 Barack Obama's speech on the Edmund Pettus Bridge to mark the fiftieth anniversary of the Selma to Montgomery marches should have represented the culmination of Martin Luther King Jr.'s dream of racial unity. Yet, in *Fracture*, MSNBC national correspondent Joy-Ann Reid shows that, despite the progress we have made, we are still a nation divided—as seen recently in headline-making tragedies such as police killings of Black citizens and uprisings across the country. With President Obama's election, Americans expected an open dialogue about race but instead discovered the irony of an African American president who seemed hamstrung when addressing racial matters, leaving many of his supporters disillusioned and his political enemies sharpening their knives. To understand why that is so, Reid examines the complicated relationship between Barack Obama and Bill

and Hillary Clinton, and how their varied approaches to the race issue parallel the challenges facing the Democratic party itself: the disparate parts of its base and the whirl of shifting allegiances among its power players—and how this shapes the party and its hopes of retaining the White House. *Fracture* traces the party's makeup and character regarding race from the civil rights days to the Obama presidency. Filled with key political players such as Shirley Chisholm, Jesse Jackson, John Lewis, and Al Sharpton, it provides historical context while addressing questions arising as we head into the next national election: Will Hillary Clinton's campaign represent an embrace of Obama's legacy or a repudiation of it? How is Hillary Clinton's stand on race both similar to and different from Obama's, or from her husband's? How do minorities view Mrs. Clinton, and will they line up in huge numbers to support her—and what will happen if they don't? Veteran reporter Joy-Ann Reid investigates these questions and more, offering breaking news, fresh insight, and experienced insider analysis, mixed with fascinating behind-the-scenes drama, to illuminate three of the most important figures in modern political history, and how race can affect the crucial 2016 election and the future of America itself.

*Before the Trumpet* Nov 29 2019 Before Pearl Harbor, before polio and his entry into politics, FDR was a handsome, pampered, but strong-willed youth, the center of a rarefied world. In *Before the Trumpet*, the award-winning historian Geoffrey C. Ward transports the reader to that world—Hyde Park on the Hudson and Campobello Island, Groton and Harvard and the Continent—to recreate as never before the formative years of the man who would become the 20th century's greatest president. Here, drawn from thousands of original documents (many never previously published), is a richly-detailed, intimate biography, its central figure surrounded by a colorful cast that includes an opium smuggler and a pious headmaster; Franklin's distant cousin, Theodore and his remarkable mother, Sara; and the still-more remarkable young woman he wooed and won, his cousin Eleanor. This is a tale that would grip the reader even if its central character had not grown up to be FDR.

*The Opium War, 1840-1842* Aug 31 2022 This book tells the fascinating story of the war between England and China that delivered Hong Kong to the English, forced the imperial Chinese government to add four ports

to Canton as places in which foreigners could live and trade, and rendered irreversible the process that for almost a century thereafter distinguished western relations with this quarter of the globe-- the process that is loosely termed the "opening of China." Originally published by UNC Press in 1975, Peter Ward Fay's study was the first to treat extensively the opium trade from the point of production in India to the point of consumption in China and the first to give both Protestant and Catholic missionaries their due; it remains the most comprehensive account of the first Opium War through western eyes. In a new preface, Fay reflects on the relationship between the events described in the book and Hong Kong's more recent history.

*Policing the World on Screen* Sep 27 2019 This book analyzes Hollywood storytelling that features an American crimefighter—whether cop, detective, or agent—who must safeguard society and the nation by any means necessary. That often means going “rogue” and breaking the rules, even deploying ugly violence, but excused as self-defense or to serve the greater good. This ends-justifies-means approach dates back to gunfighters taming the western frontier to urban cowboy cops battling urban savagery—first personified by “Dirty” Harry Callahan—and later dispatched in global interventions to vanquish threats to national security. America as the world’s “policeman often means controlling the Other at home and abroad, which also extends American hegemony from the Cold War through the War on Terror. This book also examines pioneering portrayals by males of color and female crimefighters to embody such a social or national defender, which are frustrated by their existence as threats the white knight exists to defeat.

*Shooting Stars of the Small Screen* Jan 12 2021 Since the beginning of television, Westerns have been playing on the small screen. From the mid-1950s until the early 1960s, they were one of TV's most popular genres, with millions of viewers tuning in to such popular shows as *Rawhide*, *Gunsmoke*, and Disney's *Davy Crockett*. Though the cultural revolution of the later 1960s contributed to the demise of traditional Western programs, the Western never actually disappeared from TV. Instead, it took on new forms, such as the highly popular *Lonesome Dove* and *Deadwood*, while exploring the lives of characters who never before had a starring role, including anti-heroes, mountain men, farmers, Native and African Americans, Latinos, and women. *Shooting Stars of the Small Screen* is a comprehensive encyclopedia of more than 450 actors who received star billing or played a recurring character role in a TV Western series or a made-for-TV Western movie or miniseries from the late 1940s up to 2008. Douglas Brode covers the highlights of each actor's career, including Western movie work, if significant, to give a full sense of the actor's screen persona(s). Within the entries are discussions of scores of popular Western TV shows that explore how these programs both reflected and impacted the social world in which they aired. Brode opens the encyclopedia with a fascinating history of the TV Western that traces its roots in B Western movies, while also showing how TV Westerns developed their own unique storytelling conventions.

The Telegraph Nov 09 2020 Samuel F.B. Morse's invention of the telegraph marked a new era in communication. For the first time, people were able to communicate quickly from great distances. The genesis of Morse's invention is covered in detail, starting in 1832, along with the establishment of the first transcontinental telegraph line in the United States and the dramatic effect the device had on the Civil War. The Morse telegraph that served the world for over 100 years is explained in clear terms. Also examined are recent advances in telegraph technology and its continued impact on communication.

**The Infiltrator** Apr 26 2022 The electrifying true story that inspired the major new motion picture *The Infiltrator* Robert Mazur spent years undercover infiltrating the Medellín Cartel's criminal hierarchy. The dirty bankers and businessmen he befriended—some of whom still shape power across the globe—knew him as Bob Musella, a wealthy, mob-connected big shot living the good life. Together they partied in \$1,000-per-night hotel suites, drank bottles of the world's finest champagne, drove Rolls-Royce convertibles, and flew in private jets. But under Mazur's Armani suits and in his Renwick briefcase, recorders whirred silently, capturing the damning evidence of their crimes. *The Infiltrator* is the story of how Mazur helped bring down the unscrupulous bankers

who manipulated complex international finance systems to serve drug lords, corrupt politicians, tax cheats, and terrorists. It is a shocking chronicle of the rise and fall of one of the biggest and most intricate money-laundering operation of all time—an enterprise that cleaned and moved hundreds of millions of dollars a year. Filled with dangerous lies, near misses, and harrowing escapes, *The Infiltrator* is as bracing and explosive as the greatest fiction thrillers—only it's all true.

Thrown Under the Omnibus Mar 14 2021 An essential collection of career-spanning writings by the political satirist and #1 New York Times–bestselling author of *Parliament of Whores*. From his early pieces for the *National Lampoon*, through his classic reporting as *Rolling Stone's* International Affairs editor in the 1980s and 1990s, and his brilliant, inimitable political journalism and analysis, P. J. O'Rourke has been entertaining and provoking readers with high octane prose, a gonzo Republican attitude, and a rare ability to make you laugh out loud. Christopher Buckley once described his work as “S. J. Perelman on acid.” *Thrown Under the Omnibus* brings together his funniest, most outrageous, most controversial, and most loved pieces in the definitive O'Rourke reader. Handpicked and introduced by the humorist himself, *Thrown Under the Omnibus* is the essential O'Rourke anthology. “The funniest writer in America.” —*The Wall Street Journal*

*Grant Park* Apr 02 2020 Two Chicago newspapermen grapple with race and the past in this contemporary terrorist thriller by the Pulitzer Prize–winning author of *Freeman*. Disillusioned Chicago columnist Malcolm Toussaint, fueled by yet another report of unarmed Black men killed by police, hacks into his newspaper's server to post an incendiary column that had been rejected by his editors. Toussaint then disappears, and his longtime editor, Bob Carson, is summarily fired within hours of the column's publication. While a furious Carson tries to find Toussaint—while dealing with the reappearance of a lost love from his days as a '60s activist—Toussaint is abducted by two white supremacists plotting to bomb Barack Obama's planned rally in Grant Park. Toussaint and Carson are forced to reckon with the choices they made as young men, when both their lives were changed profoundly by their work in the civil rights movement . . . *Grant Park* is a page-turning and provocative look at black and white relations in contemporary America, blending the

absurd and the poignant in a powerfully well-crafted narrative that showcases Pitts’s gift for telling emotionally wrenching stories. Praise for Grant Park “A taut thriller that weaves together a stark look at America’s tortured racial past with a fast-paced tale of terrorist conspiracy and love rekindled.” —Neil Steinberg, Chicago Sun Times “A page-turner, but also one that commands deep reflection on history, racism, and personal choices.” —Blanca Torres, The Seattle Times “Layered, insightful, and passionate. Pitts’s subtly explosive language grips readers with the delicate subject matter and earnestly implores them to understand that “[race] has always meant something and it always will.” The scars will remain, but stunningly powerful examinations like Grant Park can be the salve that helps heal open wounds.” —Shelf-Awareness, starred review

**The Telegraph in America** Feb 10 2021 Here is an often cited panoramic history of the telegraph which discusses the principal telegraph firms and the key persons within them. Throughout his work, Reid stresses the business and economic aspects of marketing this remarkable scientific invention. The importance of *The Telegraph in America* as a classic reference in the field is under-scored by the fact that the author was active in telegraphy throughout the period he discusses. He thus had a personal knowledge of persons and events under examination.
