We should be extremely glad to find a change in this point also. If more examiners are needed, there should be no difficulty in procuring them; and if there are sufficient already, why this tedious delay, we ask? 4. We have been frequently asked--Is it advisable to take up any subjects prescribed by the Science and Art Department during the period of training? This depends solely upon the state of preparation in which the student is. If his position on the Scholarship List be a creditable one, then by all means let him take up one or two Science subjects; but we cannot too strongly condemn the practice which unfortunately prevails largely at present, of taking up Science subjects when the student's time might be far more advantageously occupied in preparing for the Christmas Examination. The result very frequently is that many students are either "plucked" or barely pass in May, and also stand low in the Certificate List, whereas if they had postponed the study of Science until the completion of their training, they might have done well in both departments. On the other hand, if a student has been carefully prepared as an apprentice, and passes the Admission Examination well, his mind will be disciplined and improved by the study of Science. It is no part of our present duty to name any particular subjects; the student should be guided in this matter by his own individual taste, and by the requirements of the district in which his future sphere of labour will probably lie, and also by the teachers in the college where he resides. We propose, however, to devote the next chapter to a brief... Americans care about the public value of moral habits. They like to see virtue rewarded and vice censured, appealing as this does to the nation's deep sense that one's success rests neither in money nor in power but in one's civility. In *The Soul of Civil Society* Don Eberly and Ryan Streeter look beyond such abstractions as the "voluntary sector" and superficial communitarian solutions to civic anomie to identify the pivotal role played by local voluntary associations in a civil society. Not only important for the services they provide, these "little platoons," as Edmund Burke labeled them, are the public incubators of a "new" morality, their emphasis on civic engagement at the local level central to preserving America's democratic culture on the national and international stage. More than simply championing the promise of a social renaissance, *The Soul of Civil Society* is essential reading for those seeking to do battle with a culturally entrenched individualism that threatens the core of America's moral vitality. Answers questions about constitutional freedoms and explains how the government's actions are causing them to erode.
