"Funny, moving... I defy anyone to finish this story without tears in their eyes." —Graeme Simsion, bestselling author of *The Rosie Project* What would you do if you knew you only had 100 days left to live? For Lucio Battistini, it's a chance to spend the rest of his life the way he always should have—by making every moment count. Imperfect, unfaithful, but loveable Lucio has been thrown out of the house by his wife and is sleeping at his father-in-law's bombolini bakery when he learns he has inoperable cancer. So begin the last hundred days of Lucio's life, as he attempts to right his wrongs, win back his wife (the love of his life and afterlife), and spend the next three months enjoying every moment with a zest he hasn't felt in years. In 100 epigrammatic chapters—one for each of Lucio's remaining days on earth—100 Days of Happiness is as delicious as a hot doughnut and a morning cappuccino. Wistful, touching, and often hilarious, 100 Days of Happiness reminds us all to remember the preciousness of life and what matters most. What are the two most important days in your life? "The day you are born and the day you find out why," Mark Twain famously wrote. The search for happiness is hardwired in our DNA. It transcends age, gender, geography, vocation, and personal circumstances. But how do you achieve it? Through inspirational storytelling, scientific evidence, practical advice, captivating exercises, and poetry, Dr. Sanjiv Chopra and Gina Vild present a powerful message that shows you how to achieve happiness no matter the challenges and stumbling blocks you face along the way. They also reveal the best way to be happy: Discover and live your life's purpose. It's a sure path to human flourishing. In fact, you may be surprised to learn that living with purpose can even add years to your life. Do you know your life's purpose? This book offers a path to discovering it by illuminating the value of gratitude, forgiveness, meditation, music, friendship and so much more. It will set you on the right path and spark sustained happiness, joy and bliss. I always knew I would be a wife and mother so much I dreamt of it in my early teens. And even though I married later in life I still believed. Shortly after marriage we prepared for our baby. Then suddenly all the excitement, hopes and plans that went along with parenting a child on earth were short lived. Our son was born with Trisomy 18. The Lord obviously was prepping me my entire life by caring for others on their death bed for such a moment with my boy. I was able to prepare my boy for heaven. This journey has strengthened my walk with the Lord beyond all my expectations. And leaves me grieving with great hope. Kimmy was born and raised in North Chicago, Illinois. And was always adventurous so she knew she would move away and was led to Florida on an assignment of her life. . . She truly believes all the roads she's walked with the Lord prepped her for the loss of her precious baby boy. Her life has had sorrow, but much more joy of knowing she will reunite with him is comforting as 1 Thessalonians 13-18 says. Her prayer is for more angel parents to learn how real Jesus is and come into the knowledge and saving grace of Jesus Christ. The harrowing, heartbreaking story of Nick Yarris who spent twenty one years on Death Row for a crime he did not commit. Eve Duncan attempts to unearth one of history's most intriguing lost secrets in this adventure ripped from the pages of Greek mythology, by #1 New York Times bestselling author Iris Johansen. Archaeologist Riley Smith has been obsessed with Helen of Troy since she was a small girl, trailing her professor father all over the world in search of the tomb of the world's most beautiful woman. Professor Smith put his life on the line to prove that, instead of a myth, Helen had been a living, breathing queen. Riley seeks the help of forensic sculptor Eve Duncan, who has the unusual skills necessary to recreate the face that launched a thousand ships—revealing Helen's true appearance for the first time in history. But convincing Eve to take on the challenge will be difficult because her efforts could come at great personal risk to her and her family. . . Tomb raiders have murdered Riley's father, and now she is more determined than ever to reach the burial site first, avenge his death, and enlist Eve's aid. Also on hand to help is dashing fixer and treasure hunter Michael Cade, but could he have his own secret agenda when it comes to finding Helen? Now both Riley and Eve are in danger and in a race across one of the most remote parts of the world. All they have is their trust in each other and their belief in a dream as they hunt for Helen. Before the vogue of apocalyptic fiction really took off, in 1932 Dennis Wheatley researched and imagined a party of would-be survivors in the glow of a pending comet on course to collide with planet earth. Astronomers could see it coming, civilians could slowly feel the effect of its rays tuning into their baser violent or passionate instincts, but what action would the government take amongst the rumours in such uncertainty? Evacuate the cities under martial law and risk national panic and chaos, or simply deny knowledge to maintain order in the hope that scientific predictions would prove false? For millionaire Sam Curry, and his young wife and Hollywood starlet, Lavina, on learning of the prediction that they may have only sixty days to enjoy their new marriage, money is no object in taking measures to ensure their survival. Over dinner with a select group of family and friends, they decide a gyroscopic ark may see them through any eventualities, and go about ordering in materials without raising suspicion, and trying to live a normal life until the potential moment of impact grew near. But could they all be trusted to keep themselves and the ark safe from a nation already starting to panic, loot and riot? And if they are to survive, what state will the planet be left in? Will the millions of corpses decay into airborne disease that would wipe out anyone left? Where and how will they settle to create a new civilisation? When nothing is certain and nothing remains, will any of the survivors be able to survive each other? This powerful novel of fact is a scathing indictment of Communist tyranny, and an eloquent affirmation of the human spirit. The prodigious works of Alexander Solzhenitsyn, including his acclaimed *The Gulag Archipelago*, have secured his place in the great tradition of Russian literary giants. Ironically, *One Day in the Life of Ivan Denisovich* is the only one of his works permitted publication in his native land. Despite having no formal qualifications or previous experience in the field, she found herself working in palliative care. During the time she spent tending to those who were dying, Bronnie's life was transformed. Later, she wrote an Internet blog post, outlining the most common regrets that the people she had cared for had expressed. The post gained so much momentum that it was viewed by more than three million readers worldwide in its first year. At the request of many, Bronnie subsequently wrote a book, *The Top Five Regrets of the Dying*, to share her story. Bronnie has had a colourful and diverse life. By applying the lessons of those nearing their death to her own life, she developed an understanding that it is possible for everyone, if we make the right choices, to die with peace of mind. In this revised edition of the best-selling memoir that has been read by over a million people worldwide, with translations in 29 languages, Bronnie expresses how significant these regrets are and how we can

positively address these issues while we still have the time. The Top Five Regrets of the Dying gives hope for a better world. With both a growing family and business--and given that their doctors promised only to briefly extend his life with chemotherapy--the Stamps gave a resounding "No" to chemo and radiation. 90 Days to Live recounts the Stamps' incredible and inspirational journey to find an alternative answer to cancer. In the end... They'd beaten cancer while building a million-dollar business. Following his ALL-natural protocol religiously, Rodney's cancer went into full remission. On top of that triumph, he took his fire-and-safety business--which had just begun to take off when he'd received his cancer diagnosis--into a million-dollar enterprise. Alternately heart-wrenching and heartwarming--and delivered in an engaging dual-author format--90 Days to Live will speak to anyone struggling with an "incurable" disease, building a business under trying circumstances, or anyone who just loves a good old-fashioned, "beating-the-odds" story. Take the 30-Days to Live Challenge! What if you only had one month to live? How would you make each day meaningful? How would you relate to others differently? What would you do to make the rest of your life really matter? With eye-opening insights and soul-inspiring truths, One Month to Live will challenge you to embrace the life God has entrusted to you and you alone, and to live it out moment by moment with wholehearted authenticity, honesty, and integrity. Each chapter overflows with inspiring quotations, colorful true stories, and questions for reflection. The four sections, which can be read over four weeks, help you examine the core areas inside you that long to be exercised and expressed: how you're made to live passionately, love boldly, learn from your mistakes, and leave a legacy that endures for generations after you're gone. Complete with uplifting action points, each of the thirty chapters--one per day in a life-changing month--offers you fresh strategies for overcoming habits that mire you in mediocrity. Open yourself to the challenge of embracing your mortality and being empowered to live each day engaged in being fully alive.
