Super Series provides essential solutions, frameworks and techniques to support management and leadership development. * Developed by the ILM to support their Level 3 Introductory Certificate and Certificate in First Line Management * Well-structured and easy to follow * Fully revised and updated

The Couple's Match Book Jan 21 2022 The process of finding and making the best possible match is not an easy one. On the contrary, from an emotional perspective finding, making, maintaining, and enriching an intimate partnership is one of the most challenging tasks an adult faces. There must be an attraction or a "spark" for a true match to be made. When a couple comes for counseling, they come with the hope that their relationship can be renewed-that they can capture the heat and the emotion that they once had together. *The Couple's Match Book: Lighting, Rekindling, or Extinguishing the Flame* explores relationship theory and research. Including self-assessment activities to help determine what actions to take to improve relationships, this guide offers information that focuses on understanding and respecting personality differences, role perceptions, communication, and problem-solving. The balance of the book shares personal stories written by couples detailing their own experiences in an effort to help others in improving their intimate relationships. *The Couple's Match Book: Lighting, Rekindling, or Extinguishing the Flame* can be used as a supplemental text in marriage and family courses, as well as a primary resource in couples counseling and marriage and family therapy.

Embedding English and Maths Nov 30 2022 FE and other post-16 tutors are increasingly being asked to embed and develop English and maths skills in their lessons, and the revised common inspection framework from Ofsted places an increased emphasis on this. You may lack confidence or the required background knowledge to do this, or be struggling to find ideas that will engage and motivate your learners. Specifically written for use within vocational contexts, this text provides you with a theoretical understanding of the issues involved, including barriers to learning and how to overcome these. In addition it offers a range of practical strategies and ideas to get you started and build confidence and competence in your students. Each activity is accompanied by detailed notes that highlight key learning points, the development of vocational skills and extension opportunities.

Workshop Statistics Jul 15 2021 This first edition focuses on probability and the Bayesian viewpoint. It presents basic material on probability and then introduces inference by means of Bayes' rule. The emphasis is on statistical thinking and how one learns from data. The objective is to present the basic tenets of statistical inference. Unique in its format, the text allows students to discover statistical concepts, explore statistical principles, and apply statistical techniques. In addition to the numerous activities and exercises around which the text is built, the book includes a basic text exposition for each topic, and data appendices.

ICT Framework Solutions Year 9 Sep 16 2021 The student books in this series are in full-colour and designed for ease of use whilst working at a PC. They include find-it-out sections to encourage

students to investigate and consider things from different angles.

Advances in Information Retrieval Apr 11 2021 This book constitutes the refereed proceedings of the 33rd annual European Conference on Information Retrieval Research, ECIR 2011, held in Dublin, Ireland, in April 2010. The 45 revised full papers presented together with 24 poster papers, 17 short papers, and 6 tool demonstrations were carefully reviewed and selected from 223 full research paper submissions and 64 poster/demo submissions. The papers are organized in topical sections on text categorization, recommender systems, Web IR, IR evaluation, IR for Social Networks, cross-language IR, IR theory, multimedia IR, IR applications, interactive IR, and question answering /NLP.

Updated Maths Zone 4 (18-19) Jun 01 2020 Maths Zone (Updated Edition) is a series of eight books for Classes 1 to 8. The series conforms to the objectives outlined in National Curriculum Framework. The updated edition of Maths Zone, trying to make a difference with its new features, incorporates the latest requirements across various boards. With its activity-oriented approach, the series aims to inculcate lateral thinking, analytical, research and deduction skills in students, thus urging them to explore beyond the boundaries of textual knowledge.

100 Activities for Teaching Research Methods Aug 16 2021 A sourcebook of exercises, games, scenarios and role plays, this practical, user-friendly guide provides a complete and valuable resource for research methods tutors, teachers and lecturers. Developed to complement and enhance existing course materials, the 100 ready-to-use activities encourage innovative and engaging classroom practice in seven areas: finding and using sources of information planning a research project conducting research using and analyzing data disseminating results acting ethically developing deeper research skills. Each of the activities is divided into a section on tutor notes and student handouts. Tutor notes contain clear guidance about the purpose, level and type of activity, along with a range of discussion notes that signpost key issues and research insights. Important terms, related activities and further reading suggestions are also included. Not only does the A4 format make the student handouts easy to photocopy, they are also available to download and print directly from the book's companion website for easy distribution in class.

Strategies for Teaching Whole Number Computation Feb 28 2020 Through error analysis and targeted instruction, you can uncover students' misconceptions in addition, subtraction, multiplication, and division and help students understand and correct their own mistakes! **Critical Thinking** Mar 11 2021 Critical Thinking provides language teachers with a dynamic framework for encouraging critical thinking skills in explicit, systematic ways during their lessons. With the proliferation of fallacious arguments, "fake news," and untrustworthy sources in today's multimedia landscape, critical thinking skills are vital not only in one's native language, but also when engaged in the task of language learning. Written with the language teacher in mind, this book provides a springboard for teaching critical thinking skills in multicultural, multilingual classrooms. Suitable for graduate students, in-training teachers, and language curriculum developers interested in purposeful applications of critical thinking pedagogy for the second-language classroom, this volume presents classroom activities, suggestions for lesson planning, and ideas for researching the impact of critical thinking activities with second-language learners. This book is ideal as an invaluable resource for teacher-directed classroom investigations as well as graduate dissertation projects.
