Learning to Live Jun 25 2022 From the ordered universe of the ancient Greeks to the shadows of Nietzsche's nineteenth century, LEARNING TO LIVE shakes the dust from the history of philosophy and takes us on a fascinating journey through more than two millennia of humanity's search for understanding - of the world around us and of each other. Both a sparkling and accessible history of Western thought, and a courageous dissection of how religion and philosophy have converged and clashed through the ages, Luc Ferry's blueprint for a new humanism challenges every one of us to learn to think for ourselves, and asks us the most important question of all: how can we live better?

Sizing People Up Jun 13 2021 A former FBI agent shares his simple but powerful toolkit for assessing who you can trust--and who you can't. After two decades as a behavior analyst in the FBI, Robin Dreeke knows a thing or two about sizing people up. He's navigated complex situations that range from handling Russian spies to navigating the internal politics at the Bureau. Through that experience, he was forced to develop a knack for reading people--their intentions, their capabilities, their desires and their fears. Dreeke's first book, It's Not All About "Me," has become a cult favorite with readers seeking to build quick rapport with others. His last book, The Code of Trust, was about how to inspire trust in others as a leader. In Sizing People Up, Dreeke shares his simple, six-step system that helps you predict anyone's future behavior based on their words, goals, patterns of action, and the situation at hand. Predicting the behavior of others is an urgent need for anyone whose work involves relationships with others, whether it's leading an organization, collaborating with a teammate, or closing a sale. But predictability is not as simple as good and evil, or truth and fiction. Allies might make a promise with every intention of keeping it, not realizing that they will be unable to do so due to some personal shortcoming. And those seeking to thwart your endeavor may not realize how reliable their malevolent tells have become. Dreeke's system is simple, but powerful. For instance, a colleague might have a strong moral code, but do they believe your relationship will be long-term? Even the most upstanding person can betray your trust if they don't see themselves tied to you or your desired result in the long term. How can you determine whether someone has both the skill and will to do what they've said they're going to do? Behaviors as subtle as how they take notes will reveal their reliability. Using this book as their manual, readers will be able to quickly and easily determine who they can trust and who they can't; who is likely to deliver on promises and who will disappoint; and when a person is vested in your success vs when they are actively plotting your demise. With this knowledge they can confidently embark on anything from a business venture to a romantic relationship to a covert operation without the stress of the unknown.

Remote Viewing Sep 28 2022 Is it possible to see across space and time? Even those who accept that humans can reach beyond the conventional five senses typically think of psychics as "special" or "gifted" with unusual abilities. But David Morehouse teaches otherwise—all human beings, including you, have the innate capacity for remote viewing. David Morehouse was trained by the U.S. government in remote viewing—an exact scientific protocol for tapping the human power to gather information across space and time. In this comprehensive manual, he has taken his military training as an "operational" remote viewer and turned it into a step-by-step training system—one that teaches any serious reader how to unlock their natural abilities and become more than the physical world allows. Remote Viewing includes more than just a method for gathering information. It is a transformational tool instilling within you the absolute and irrefutable evidence that you are more than human—that you are extraordinarily human. As you gain experience and confidence as a viewer, you will tap into the collective unconscious that connects you to everything and everyone in the universe. Through David Morehouse's training, you will learn to touch the infinite source of life and knowledge that spiritual masters throughout human history have sought. David Morehouse's superiors in the DIA/CIA called him "the most exceptional candidate ever to have grasped this difficult intelligence collection methodology." What sets him apart as a teacher is his unparalleled ability to present the complexities of remote viewing in an accessible, logical, and artful manner. As more than 23,000 students have already discovered, David Morehouse has set a new and brilliant standard for teaching the scientific protocol of remote viewing. "You have the ability to do this," Morehouse says. "Something extraordinary is absolutely possible

in your life." Now for the first time, he brings you his method for taking your first step into your ultimate potential in a single volume: Remote Viewing: The Complete User's Manual for Coordinate Remote Viewing, which also include a cool-down audio track. David Morehouse has found that this psychoacoustic "pink noise" track is especially effective for helping us enter the brainwave state of relaxed awareness needed for remote viewing.
