Welcome to the future, where the norms are vast bio-constructed cities, air toxic enough to force citizens to wear oxygen masks, and crime so severe that the cops drive tanks! When a mysterious winged girl with the power to cleanse the poisoned air is kidnapped by the villainous Buaku, police mini-tank commander Leona Ozaki, her tank Bonaparte, and her lovesick partner Al must confront the arch-criminal and his catgirl molls-the beautiful and deadly Annapuma and Unipuma-before Buaku's master plan kicks into gear. Buaku has more than money on his mind, and the future fate of humanity hangs in the balance! Produced by international comics superstar Shirow Masamune, creator of Appleseed and Ghost in the Shell, Dominion is an ecological-dystopian-police procedural adventure/comedy as only Shirow can create! Motor trikes have been around since the dawn of motoring, with many starting out as utility vehicles or prototypes of cars. But trikes haven't died out or become mere relics of motoring history – companies all over the world still produce them today, and many will convert a motorcycle into a trike. Trikes are not only huge fun, but can also be a lifestyle choice. They are as diverse as the people who ride them, and this book illustrates the vast range of machines available. The reader will discover a plethora of trike designs and layouts from the late 19th century to the present day. Some influential designs include Piaggio's three wheeled vehicles, the Morgan three wheeler, and the Harley-Davidson Servicar. The book also features the products of companies that convert motorcycles into trikes, and shows some mass-produced examples that you can buy today. Then there are the weird and wonderful machines built by individual enthusiasts – a testament to their engineering skills and true eccentricity ... The authors describe the theory and investigative methods they developed and applied in practice, which are considered to be of essential interest for specialists in the field of the electrical engineering industry in European countries, the USA, Argentina, and Brazil, as well as in such countries as India, China, and Iran. This book will be of interest to engineers specialized in the field of the manufacture, operation, and repair of A.C. machines (motors and generators) as well as electric drives; to professors, lecturers, and post-graduate students of technical universities, who are specializing in the field of electric machine engineering and electric drives; and to students who are engaged in the field of high current techniques, electric drives, and electric machine engineering. The Haynes Service and Repair manual for the Piaggio Vespa Scooter. This filthy meat-grinder of a comics space odyssey is collected in one massive volume! Prison Pit is a planet full of repugnant intergalactic criminals, drug-filled slugs, and now Cannibal F\*\*\*face (CF). From 2009 to 2018, the crudely manic pen and mind of Johnny Ryan documented the mayhem and mutation as CF loses his arm to a vile beast, replaces it with a symbiotic bug that gives him a steroid-like jolt, and seeks grisly revenge against any and all creatures that get in his way. To find his way out he must do battle with his arch-enemy Slitt, the only one who knows how to escape the hellscape they inhabit. Finally, CF is pitted against the very system that shaped him into the avatar of death and destruction he has become. In *The Wild Irish Girl*, the powerful Irish heroine's marriage to a heroic Englishman symbolizes the Anglo-Irish novelist Lady Morgan's re-imagining of the relationship between Ireland and Britain and between men and women. Using this most influential of pro-union novels as his point of departure, Thomas J. Tracy argues that nineteenth-century debates over what constitutes British national identity often revolved around representations of Irishness, especially Irish womanhood. He maps out the genealogy of this development, from

Edgeworth's *Castle Rackrent* through Trollope's Irish novels, focusing on the pivotal period from 1806 through the 1870s. Tracy's model enables him to elaborate the ways in which gender ideals are specifically contested in fiction, the discourses of political debate and social reform, and the popular press, for the purpose of defining not only the place of the Irish in the union with Great Britain, but the nature of Britishness itself. *The Localist: Think Independent, Buy Local, and Reclaim the American Dream* is the story of one girl's journey from buy-local blogger to woman entrepreneur and indie-shop advocate. When Carrie Rollwagen decided to give up corporate shopping for a year and instead shop local-only, she knew that she'd have to learn how to shop local, that she'd discover new indie businesses, and that she'd need to makeover her shopping habits. What she didn't know is that she'd save money, discover how to connect with her community, and learn to love indie business more than the big box stores she'd bought from all her life. She also didn't know that, before her buy-local year was over, she'd be the owner of her own independent business, a community coffee shop and indie bookstore in Birmingham, Alabama. In *The Localist*, we follow Carrie on her localist adventure as she embraces slow food, small business, the locavore movement, and many quirky indie shopkeepers and unique independent shops along the way. She tells the story of her year of blogging about buying local in Birmingham, Alabama, and she gives us an inside look at her experience as a new female entrepreneur opening a new neighborhood business: Church Street Coffee & Books, an independent bookshop and locally owned coffee shop. Part memoir, part manual on how to shop local, *The Localist* is pro-community, but it's not necessarily anti-corporate. Carrie doesn't attack all big business, but rather shows us what we create with our shopping dollars and helps us see new ways of making positive impact on our communities with our spending. Big box stores are convenient, but corporations are not people, and it's important that we shop local and support indie business to keep the scales balanced between Main Street and Corporate America. Carrie Rollwagen is a copywriter and independent business owner based in Birmingham, Alabama. *The Localist: Think Independent, Buy Local, and Reclaim the American Dream*, based on her year-long blog about choosing independent shops over big box stores, is her first book. In the worldwide best seller *Values in a Time of Upheaval*, Joseph Ratzinger (now Pope Benedict XVI) passionately defends the role traditional Judeo-Christian values should play in a pluralistic society and a multicultural world. He examines such crucial contemporary issues as the moral foundations of a free society, the role of spiritual values in promoting human rights, current challenges to Western culture, and the place of faith and love of God in finding true peace. Joseph Ratzinger proposes a balance of faith and reason that avoids the extremes of fundamentalist theocracies and secular, relativist states. Topics include: Politics and moralityPeaceThe meaning of historyTruth in a pluralistic worldThe moral basis of democratic statesRelativismHuman dignityThe Christian basis for hopeBioethicsFreedomHuman rights and responsibilitiesMarriage and familyTradition and progress GSXR1300R Hayabusa (1999-2007) The most comprehensive and up-to-date catalogue of the Vespa ever compiled, featuring all the models and versions produced to date, listed year by year through a series of files illustrated with invaluable archive materials and accompanied by detailed technical information.
