Vision Map Aug 07 2020 There is a gap between where we are and where we see ourselves in our biggest dreams. This gap can seem insurmountable, overwhelming, and even impossible. But here's the thing: God often gives us a unique message to share or a difficult problem to solve, and we just need a simple push in the right direction. Vision Map will help you

take practical steps to see your vision come to pass based on a simple goal-writing plan. A few years back, Jöiç½l Malm had the idea to start an organization that led people on outdoor expeditions (no big deal, just like climbing Mount Kilimanjaro!) with a spiritual, God-centered focus. Then he went out and did it:

<http://www.summitleaders.org/> This book is a response to the question he gets often, "How do you start something like that?" Vision Map is not a formula for overnight success, but it is a template to start anyone on the path to envisioning their God-given dream to start a business or start a family or run a marathon or lose 20 pounds or plant a church or read through the Bible or write a book or climb a mountain! Or whatever else you and God can dream up.

Second Firsts Apr 14 2021 A widowed therapist explores grief, loss, and our innate resilience, drawing on neuroscience and personal experience to lead the bereaved through the five stages of healing After studying to become a therapist and crisis intervention counselor—even doing her master’s thesis on the stages of bereavement—Christina Rasmussen thought she understood grief. But it wasn’t until losing her husband to cancer in her early 30s that she truly grasped the depths of sorrow and pain that accompany loss. Using the knowledge she gained while wading through her own grief and reading hundreds of neuroscience books, Rasmussen began to look at experiences in a new way. She realized that

grief plunges you into a gap between worlds—the world before loss and the world after loss. She also realized how easy it is to become lost in this gap. In *Second Firsts*, Rasmussen walks you through her Life Reentry process to help you break grief's spiral of pain, so you can stop simply surviving and begin to live again. She shows you that loss can actually be a powerful catalyst to creating a life that is in alignment with your true passions and values. The resilience, strength, and determination that have gotten you through this difficult time are the same characteristics that will help you craft your wonderful new life. Her method, which she has used successfully with thousands of clients, is based on the science of neuroplasticity and focuses on consciously releasing pain in ways that both honor suffering and rewire the brain to change your perception of the world and yourself. Using practical exercises and stories drawn from her own life and those of her clients, Rasmussen guides you through five stages of healing that help you open up to new possibilities. From acknowledging your fear, to recognizing where you stand now, to taking active steps toward a new life, Rasmussen helps you move past the pain and shows that it's never too late to step out of the gap and experience life again—as if for the first time.
