**This Little Puffin...** Feb 27 2020

**Ghostly Apparitions** May 12 2021 A media archaeology that traces connections between new media technologies and distinct cultural realms, considering topics that range from Kant's philosophy to somnambulist clairvoyants. Drawing together literature, media, and philosophy, Ghostly Apparitions provides a new model for media archaeology. Stefan Andriopoulos examines the relationships between new media technologies and distinct cultural realms, tracing connections between Kant's philosophy and the magic lantern's phantasmagoria, the Gothic novel and print culture, and spiritualist research and the invention of television. As Kant was writing about the possibility of spiritual apparitions, the emerging medium of the phantasmagoria used hidden magic lanterns to terrify audiences with ghostly projections. Andriopoulos juxtaposes the philosophical arguments of German idealism with contemporaneous occultism and ghost shows. In close readings of Kant, Hegel, and Schopenhauer, he traces the diverging ways in which these authors appropriate optical media effects and spiritualist notions. The spectral apparitions from this period also intersect with an exploding print market and the rise of immersive reading practices. Andriopoulos explores the circulation of ostensibly genuine ghost narratives and Gothic fiction, which was said to produce "reading addiction" and a loss of reality. Romantic representations of animal magnetism and clairvoyance similarly blurred the boundary between fiction and reality. In the 1840s, Edgar Allan Poe adapted a German case history that described a magnetic clairvoyant as arrested in the moment of dying. Yet even though Poe's tale belonged to the realm of literary fiction, it was reprinted as an authentic news item. Andriopoulos extends this archaeology of new media into the early twentieth century. Tracing a reciprocal interaction between occultism and engineering, he reveals how spiritualist research into the psychic "television" of somnambulist clairvoyants enabled the concurrent emergence of the technical medium.

*Transputer Development System* Sep 03 2020 A coverage of the Transputer Development System (TDS), an integrated programming environment which facilitates the programming of transputer networks in OCCAM. The book explains transputer architecture and the OCCAM programming model and incorporates a TDS user guide and reference manual.

**A Texan's Story** Nov 29 2022 Walter Prescott Webb (1888–1963), a towering figure in Texas and western history and letters, published an abundance of books—but for decades the autobiography he'd written late in life sat largely undisturbed among his papers. Webb's remarkable story appears here in print for the first time, edited and annotated by Michael Collins, an authority on Texas history. This firsthand account offers readers a window on the life, the work, and the world of one of the most interesting thinkers in the history, and historiography, of Texas. Webb's narrative carries us from the drought-scarred rim of West Texas known as the Cross Timbers, to the hardscrabble farm life that formed him, to the bright lights of Austin and the University of Texas, where he truly came of age. Fascinating for the picture it summons of the Texas of his youth and the intellectual landscape of his career, Webb's autobiography also offers intriguing insights into the way his epic work, *The Great Plains*, evolved. He also describes the struggle behind his groundbreaking history of that storied frontier fighting force the Texas Rangers. Along the way, Webb reflects on the nature of historical research, the role that Texas and the West have played in American history, the importance of education, and the place of universities in our national culture. More than a rare encounter with a true American character's life and thought, *A Texan's Story* is also a uniquely enlightening look into the understanding, writing, and teaching of western American history in its formative years.

**West of Everything** Oct 29 2022 A leading figure in the debate over the literary canon, Jane Tompkins was one of the first to point to the ongoing relevance of popular women's fiction in the 19th century, long overlooked or scorned by literary critics. Now, in *West of Everything*, Tompkins shows how popular novels and films of the American west have shaped the emotional lives of people in our time. Into this world full of violence and manly courage, the world of John Wayne and Louis L'Amour, Tompkins takes her readers, letting them feel what the hero feels, endure what he endures. Writing with sympathy, insight, and respect, she probes the main elements of the Western—its preoccupation with death, its barren landscapes, galloping horses, hard-bitten men and marginalized women--revealing the view of reality and code of behavior these features contain. She considers the Western hero's attraction to pain, his fear of women and language, his desire to dominate the environment--and to merge with it. In fact, Tompkins argues, for better or worse Westerns have taught us all--men especially--how to behave. It was as a reaction against popular women's novels and women's invasion of the public sphere that Westerns originated, Tompkins maintains. With Westerns, men were reclaiming cultural territory, countering the inwardness, spirituality, and domesticity of the sentimental writers, with a rough and tumble, secular, man-centered world. Tompkins brings these insights to bear in considering film classics such as *Red River* and *Lonely Are the Brave*, and novels such as Louis L'Amour's *Last of the Breed* and Owen Wister's *The Virginian*. In one of the most moving chapters (chosen for *Best American Essays* of 1991), Tompkins shows how the life of Buffalo Bill Cody, killer of Native Americans and charismatic star of the Wild West show, evokes the contradictory feelings which the Western typically elicits--horror and fascination with violence, but also love and respect for the romantic ideal of the cowboy. Whether interpreting a photograph of John Wayne of meditating on the slaughter of cattle, Jane Tompkins writes with humor, compassion, and a provocative intellect. Her book will appeal to many Americans who read or watch Westerns, and to all those interested in a serious approach to popular culture.

**Nfpa 99** Jun 12 2021

*An Introduction to Economic Dynamics* Mar 22 2022 This is an examples-driven treatment of introductory economic dynamics for students with a basic familiarity of spreadsheets. Shone approaches the subject with the belief that true understanding of a subject can only be achieved by students themselves setting out a problem and manipulating it experimentally. Although all economics students now have access to spreadsheets, they are often used for little more than graphing economic data. This book encourages students to go several stages further and set up and investigate simple dynamic models. A web-site for students and instructors is included that contains an additional 100 questions for students and 100 for instructors.

**MathLinks 7** Jan 20 2022

**Disciple IV** Oct 17 2021 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

**Poetry in Stitches** Mar 29 2020 "Solweig Hisdal is not only aware of the knowledge housed in Norway's museums, she has also learned how to use it. She has visited museums throughout the country, searching eagerly for the treasures that her ancestors left behind. She has found textiles, chests, cabinets and old folk costumes that have later become her greatest source of inspiration. This book is a result of her quest, and it shows how the creativity of the past has inspired her to make beautiful knitted designs. It contains wonderful knitting ideas for almost all occasions, from a child's christening outfit to an exquisite, knitted bridal cardigan with beads and silk. Whether you wish to be inspired by the beautiful pictures, or knit some of the outfits -- enjoy the book!"--P. [4] of cover.

**SHAPE** Dec 31 2022 Architektur wird globaler und austauschbarer – fern von jeglicher ortsgebundener Identität. Spiegelnde Fassaden erscheinen als Sinnbild eines ökonomisch geprägten Wertesystems. Form und Oberfläche zielt auf einen Soforteffekt ab, der Diskurs bleibt aus. Ziel ist das Branding der Gebäudehülle als ökonomischer Auftrag. SHAPE zeigt, dass globales Design weder maßstabs- noch ortsabhängig ist und bildet damit in Collagen den gegenwärtigen Zenit ab. Ikonen des Konsums werden aus ihrem Kontext gelöst und in Landschaften oder Stadtbilder eingebildet. Mit dem Effekt, dass sie eine natürlich wirkende Architekturansicht visualisieren. Ein Flacon von SENSAI könnte ohne weiteres auch ein Gebäude in der Skyline von Katar sein. Dass das Thema von hoher Aktualität ist, zeigt Rem Koolhaas auf der Biennale. Er ruft die Länder unter dem Titel „Absorbing Modernity“ dazu auf, den Prozess der Auslöschung der nationalen Charakteristika zugunsten der fast weltweiten Adaption einer einzigen modernen Architektursprache und eines einzigen Repertoires von Typologien zu zeigen.

*How to Think about Weird Things* Jul 02 2020 This brief, inexpensive text helps the reader to think critically, using examples from the weird claims and beliefs that abound in our culture to demonstrate the sound evaluation of any claim. The authors focus on types of logical arguments and proofs, making *How to Think about Weird Things* a versatile supplement for logic, critical thinking, philosophy of science, or any other science appreciation courses.

**Hepatitis C: Epidemiology, Prevention and Elimination** Dec 07 2020 This volume focuses on epidemiology, genetic diversity and global distribution of Hepatitis C, as well as laboratory diagnosis. Furthermore, the book explores the natural history of the virus and discusses international elimination strategies. The two volume work on Hepatitis C introduces to the topic by reviewing virology, diagnosis, epidemiology, prevention and elimination of HCV. The book provides a valuable source at full length for researchers and clinicians working on Hepatitis C.

**The Best American Short Stories 2020** Apr 22 2022 New York Times best-selling author Curtis Sittenfeld selects the twenty best short stories of the year.
