This is the second year of a two-year math program designed to give students a firm mathematical understanding, both academically and spiritually. It features a biblical worldview, a solid foundation for high school math and real life, and has history, science and real-life connections. The focus is on the essential principles of algebra, coordinate graphing, probability, statistics, functions, and other important areas of mathematics. This engaging textbook teaches

students about the Middle Ages, from the fall of Rome to the Renaissance. Follow this story-based approach to world history as you meet numerous historical figures (including St. Patrick, Genghis Khan, Richard the Lionheart, Joan of Arc, and Martin Luther), visit medieval sites around the world, and trace the rise and fall of numerous empires and kingdoms. Volume 2 in this series for your junior high students includes: A conversational narrative that brings medieval history to lifeGorgeous photographs, artwork, and maps that help students visualize people, places, and eventsEducational features that dig deeper into the history of the Christian Church Throughout the course, students will see God's guiding hand through history. They will study the major events of the Middle Ages and delve into how society and culture developed and changed. Students will also study medieval civilizations spanning the whole globe, including the Byzantines, Anglo-Saxons, Muslims, Chinese, Japanese, Mongols, Mughals, Vikings, Normans, Russians, Songhai, and Aztecs! "Active Skills for Reading" is an exciting five-level reading series that develops learners' reading comprehension and vocabulary skills. Written by reading specialist Neil J. Anderson, the new edition of this best-selling series uses an Active approach to help learners become more confident, independent - and active-readers. Active Reading: A = Activate Prior Knowledge; C = Cultivate Vocabulary; T = Think About Meaning; I = Increase Reading Fluency; V = Verify Strategies; and E = Evaluate Progress. McGraw-Hill My Math develops conceptual understanding, computational proficiency, and mathematical literacy. Students will learn, practice, and apply mathematics toward becoming college and career ready. Algebra doesn't have to consist of solving hundreds of apparently meaningless problems! These worksheets, while they include abstract problems to help the student practice the skills, also include real-life problems that allow the student

to remember the purpose of what they're learning, give them a chance to explore God's handiwork, and equip them to apply math outside of a textbook. Easy-to-use daily schedule Carefully graduated problems to help students learn the material Built-in review of concepts Problems that let the students apply algebra to real-life settings Perforated pages to tear out and hand students Chapter quizzes and quarter tests, along with a final exam The Writing & Rhetoric series method employs fluent reading, careful listening, models for imitation, and progressive steps. It assumes that students learn the best when reading excellent, whole-story examples of literature and by growing their skills through imitation. Each exercise is intended to impart a skill (or tool) that can be employed in all kinds of writing and speaking. The exercises are arranged from simple to more complex. What's more, the exercises are cumulative, meaning that later exercises incorporate the skills acquired in preceding exercises. This series is a step-by-step apprenticeship in the art of writing and rhetoric. Narrative 1, the second book of twelve in the Writing & Rhetoric series, uses parable, myth, and other tales to continue the recovery of the proven method of teaching method of teaching writing, using various forms of narrative to teach beginning writers the craft of writing well. From "The Wheels on the Bus" to "Eensy Weensy Spider," these classic songs combine movement and music to create a high-energy, fun experience for children. At the same time, children learn coordination skills and the musical concepts of form and expression. Easy to learn and fun to sing, fingerplays and action songs are a wonderful way to engage children, while at the same time plant seeds of musical sensitivity and imagination. This special book, for the first time, collects the most cherished of these songs (some in danger of being lost or forgotten), enabling your family to carry on the tradition of laughter and learning that fingerplays and action songs have inspired for generations! This is a series that prepares students for paragraph and composition writing, while making the process enjoyable. Writing from Within, Level 2 focuses on generating topics, writing cohesive paragraphs, and organizing them into clear, logical compositions. The book contains twelve units, each one centering around a final writing

assignment. As students prepare for their assignment, they brainstorm ideas for writing and analyze sample paragraphs and compositions for both language and organization. The units offer a balance of introspective writing assignments with more conventional, task-based ones. Level 2 writing topics include a major life event, personal goals, a research report, and a newspaper articles. Critical thinking skills are more important than ever in academic and real-world situations. Daily Higher-Order Thinking provides you with daily activities that build and grow students' problem-solving skills in engaging formats such as logic and visual puzzles, brainteasers, creative writing, picture comparison, word play, and "what if" questions. Daily 20-minute practice lessons help students apply critical thinking skills across subject areas. The lessons develop students' higher-order thinking skills and allow them to integrate their learning and make deeper connections between their learning and the real world. Use Daily Higher-Order Thinking for warm-up exercises, extension activities, early finisher tasks, and small-group center activities to develop your students' critical and creative thinking skills. How it works: - Monday-Friday: Full-page daily activities focus on a specific behavioral verb each day. The verb is defined at the top of the page so students become aware of when and how they are using the thinking skill. - Each full-page activity gives students an opportunity to practice a higher-order thinking skill in the context of a different curriculum area. - Questions and tasks are open-ended and can be used to promote peer-to-peer discussions as students share and discuss answers, while also fostering critical thinking skills. - An answer key provides sample responses for each day's activities. Evaluate students' responses based on your own expectations and on what content your students have encountered. The daily activities focus on skills such as analyzing, predicting, modeling, composing, organizing, evaluating options, designing, critiquing, and problem-solving. Grade 2 activities include: logic puzzles, language play, creative writing, drawing, and visual brainteasers. Daily lessons practice higher-order thinking skills such as: - Comparing - Grouping - Identifying - Inferring - Solving Challenge and inspire your teenage learners to think beyond language. American Think

is a vibrant course designed to engage teenage learners and make them think. As well as building students' language skills, it offers a holistic approach to learning: developing their thinking skills, encouraging them to reflect on values and building self-confidence. Topics are chosen to appeal to and challenge teenagers, firing their imagination and ensuring effective learning. The interleaved Teacher's Edition offers full support including teacher's notes, audio scripts, answer keys, suggestions for extra activities and mixed ability classes as well as tips on how to get the best out of the digital components. A brand-new three-level pre-primary course that has English language, literacy, numeracy and basic science at its core. Letters, phonics and numbers are introduced through the Pupil's Book illustrations and pupils have the fun of finding letters and numbers hidden on the page. The fun and colourful activity-based approach makes sure the whole child is learning and developing along with the language.

- Strong Development of early Literacy and Numeracy
- The syllabus follows the United Kingdom Statutory Framework for Early Years Development Standards (EYFS).
- Phonics are presented and practised in each lesson through the audio material, topic vocabulary and phonic activities.
- Chants and songs in each lesson provide a fun way to absorb the language through a Total Physical Response approach.
- The Art and craft lessons allow students to explore and work with a range of media and materials, providing opportunities to develop motor skills and to share their ideas, thoughts and feelings.
- An online Parent's Booklet explains the course rationale and objectives, parent and child activities so that learning can continue at home and parents can be fully involved with their child's learning.
