pt. 1. List of patentees.--pt. 2. Index to subjects of inventions. Indtil for relativt nyligt var verdenshistorien skrevet på en måde, som fik det til at se ud, som om kun stormænd, bisper, konger og militærmænd var værd at fortælle om – med særlig vægt lagt på ordet 'mænd'. Niels Skyum-Nielsens tobindsværk "Fruer og vildmænd" gør op med den traditionelle patriarkalske historiefortælling, hvor mandlige historikere fortæller om mandlige historiske personer og ignorerer det enorme flertal af kvinder, slaver, fattige og svage mennesker, der til enhver tid har fyldt lige så meget i samfundet, og derfor også fortjener en plads i historien. I "Fruer og vildmænd" genfortæller Niels Skyum-Nielsen den danske middelalderhistorie, så den afspejler hele samfundet og understreger desuden vigtigheden af dette opgør med den traditionelle historiefortælling. Andet bind fra 1997 fokuserer på perioden 1340-1400 og omhandler blandt andet de mange indflydelsesrige middelalderdronninger, hvoraf Margrete den første er den mest kendte, men bestemt ikke den eneste, der satte sit aftryk på danmarkshistorien. Niels Skyum-Nielsen (1921-1982) var en dansk historiker. Han blev uddannet ved Københavns Universitet i 1949 og blev efterfølgende ansat samme sted med speciale i middelalderhistorie. Som forfatter står han bag en række bøger, herunder "Fruer og vildmænd", "Kvinde og slave", "Kirkekampen i Danmark" og "Blodbadet i Stockholm og dets juridiske maskering".

She's a royal on the run, as the PLOT thickens! Life as a princess = a dream come true, right? Girl, please! Between palace rules, a mean queen-bee roomie at her posh boarding school, the ever-present paparazzi -- and, BTW, her unrequited crushing on Jonas -- Jenna feels superstressed, and finds herself wishing she were a plain old nobody again. Which is why she tries to run away . . . only to get trapped in a scheme to overthrow her uncle, the king! Major drama. Suddenly -- seriously? -- Jenna must stop a civil war. When all she really wants is her first kiss! The charming sequel to THE PRINCESS PLOT! The international bestselling series with over 5 million copies sold in the U.S. alone! Still far from their homeland after escaping slavery in the icebound land of Skandia, Will and Evanlyn's plans to return to Araluen are spoiled when Evanlyn is taken captive by a Temujai warrior. Though still weakened by the warmweed's toxic effects, Will employs his Ranger training to locate his friend, but an enemy scouting party has him fatally outnumbered. Will is certain death is close at hand, until Halt and Horace make a daring, last-minute rescue. The reunion is cut short, however, when Halt makes a horrifying discovery: Skandia's borders have been breached by the entire Temujai army. And Araluen is next in their sights. If two kingdoms are to be saved, an unlikely union must be made. Will it hold long enough to vanquish a ruthless new enemy? Or will past tensions spell doom for all? The battles and drama are nonstop in Book Four of this hugely popular epic. Perfect for fans of J.R.R. Tolkien's Lord of the Rings, T.H. White's The Sword in the Stone, Christopher Paolini's Eragon series, and George R. R. Martin's Game of Thrones/A Song of Ice and Fire series. Despite being proven ineffective as a coercive tool or deterrent, the international community has actively withheld recognition in numerous instances of territorial conquest since the 1930s. Joseph O'Mahoney systematically analyses 21 case studies - including the Manchurian Crisis, the Turkish invasion of Cyprus and Russia's annexation of Crimea - to explore why so many states have adopted a policy of non-recognition of the spoils of war. By drawing on historical sources including recently declassified archival documents, he evaluates states' decision-making. He develops a new theory for non-recognition as a symbolic sanction aimed at reproducing common knowledge of the rules of international behaviour. This book details the origin and racing history of the Ferrari 333 SP. Uniquely, none of the 333 SP models were entered into races by Ferrari itself. The cars were built specifically for customer use; a purchase price of \$900,000 included two spare engines and race technical support supplied by Ferrari engineers. A total of 40 cars were built; the first four by Ferrari, the remainder manufactured by Dallara & Michellotto using Ferrari engines. All of the cars were sold to, and race entries made by, privateer teams. From 1994, the cars contested the IMSA World Sports Car Championship, the United States Road Racing Championship, and the American Le Mans Series, at circuits throughout North America. In 1997, the cars also featured in the Europe-based International Sports Racing Series, as well as the 24 Hours of Le Mans. Two years later, the Doran-Lista team installed a Judd V10 engine into its 333 SP, with the aim of increasing power and improving fuel efficiency. In all, from the 126 races entered, 47 victories were claimed by the 333 SP. The Treatise of Petroleum Geology was conceived during a discussion held at the annual AAPG meeting in 1984 in San Antonio, Texas. This discussion led to the conviction that AAPG should publish a state-of-the-art textbook in petroleum geology, aimed not at the student, but at the practicing petroleum geologist. The textbook gradually evolved into a series of three different publications (Reprint series, Atlas, Handbook). The set was designed to represent the cutting edge in petroleum exploration knowledge and application. Stratigraphic traps II comprises a collection of detailed field studies that illustrate the many ways oil and

gas are trapped and to serve as a guide to the petroleum geology of basins where these fields are found.
