This manuscript is about the sense of justice that limits what individuals can do in pursuit of their ends and opens them to exploitation. It shows how flawed agents choosing under partial information advance those of their ends having nothing to do with justice by maintaining such a disposition. Winner, Next Generation Indie Book Awards - Women's Nonfiction Best Book of 2020, National Law Journal The inspiring and previously untold history of the women considered—but not selected—for the US Supreme Court In 1981, Sandra Day O'Connor became the first female justice on the United States Supreme Court after centuries of male appointments, a watershed moment in the long struggle for gender equality. Yet few know about the remarkable women considered in the decades before her triumph. Shortlisted tells the overlooked stories of nine extraordinary women—a cohort large enough to seat the entire Supreme Court—who appeared on presidential lists dating back to the 1930s. Florence Allen, the first female judge on the highest court in Ohio, was named repeatedly in those early years. Eight more followed, including Amalya Kearse, a federal appellate judge who was the first African American woman viewed as a potential Supreme Court nominee. Award-winning scholars Renee Knake Jefferson and Hannah Brenner Johnson cleverly weave together long-forgotten materials from presidential libraries and private archives to reveal the professional and personal lives of these accomplished women. In addition to filling a notable historical gap, the book exposes the tragedy of the shortlist. Listing and bypassing qualified female candidates creates a false appearance of diversity that preserves the status quo, a fate all too familiar for women, especially minorities. Shortlisted offers a roadmap to combat enduring bias and discrimination. It is a must-read for those seeking positions of power as well as for the powerful who select them in the legal profession and beyond. From the legendary former Fed Chairman and the acclaimed Economist writer and historian, the full, epic story of America's evolution from a small patchwork of threadbare colonies to the most powerful engine of wealth and innovation the world has ever seen. Shortlisted for the 2018 Financial Times and McKinsey Business Book

of the Year Award From even the start of his fabled career, Alan Greenspan was duly famous for his deep understanding of even the most arcane corners of the American economy, and his restless curiosity to know even more. To the extent possible, he has made a science of understanding how the US economy works almost as a living organism--how it grows and changes, surges and stalls. He has made a particular study of the question of productivity growth, at the heart of which is the riddle of innovation. Where does innovation come from, and how does it spread through a society? And why do some eras see the fruits of innovation spread more democratically, and others, including our own, see the opposite? In *Capitalism in America*, Greenspan distills a lifetime of grappling with these questions into a thrilling and profound master reckoning with the decisive drivers of the US economy over the course of its history. In partnership with the celebrated Economist journalist and historian Adrian Wooldridge, he unfolds a tale involving vast landscapes, titanic figures, triumphant breakthroughs, enlightenment ideals as well as terrible moral failings. Every crucial debate is here--from the role of slavery in the antebellum Southern economy to the real impact of FDR's New Deal to America's violent mood swings in its openness to global trade and its impact. But to read *Capitalism in America* is above all to be stirred deeply by the extraordinary productive energies unleashed by millions of ordinary Americans that have driven this country to unprecedented heights of power and prosperity. At heart, the authors argue, America's genius has been its unique tolerance for the effects of creative destruction, the ceaseless churn of the old giving way to the new, driven by new people and new ideas. Often messy and painful, creative destruction has also lifted almost all Americans to standards of living unimaginable to even the wealthiest citizens of the world a few generations past. A sense of justice and human decency demands that those who bear the brunt of the pain of change be protected, but America has always accepted more pain for more gain, and its vaunted rise cannot otherwise be understood, or its challenges faced, without recognizing this legacy. For now, in our time, productivity growth has stalled again, stirring up the populist furies. There's no better moment to apply the lessons of history to the most pressing question we face, that of whether the United States will preserve its preeminence, or see its leadership pass to other, inevitably less democratic powers. *Grow Your Business* is more than a book, it is a business growth system. It explores the keys to enable you to create, maintain and grow a relational ecosystem that will ensure your business growth. The more people know, like and trust you and your business the more growth you will experience. If you want to achieve business growth then read this book because it has been written for you. **WINNER OF THE FT & MCKINSEY BUSINESS BOOK OF THE YEAR AWARD 2021** The instant New York Times bestseller A Financial Times and The Times Book of the Year 'A terrifying exposé' The Times 'Part John le Carré . . . Spellbinding' New Yorker We plug in anything we can to the internet. We can control our entire lives, economy and grid via a remote web control. But over the past decade, as this transformation took place, we never paused to think that we were also creating the world's largest attack surface. And that the same nation that maintains the greatest cyber advantage on earth could also be among its most vulnerable. Filled with spies, hackers, arms dealers and a few unsung heroes, *This Is How They Tell Me the World Ends* is an astonishing and gripping feat of journalism. Drawing on years of reporting and hundreds of interviews, Nicole Perloth lifts the curtain on a market in shadow, revealing the urgent threat faced by us all if we cannot bring the global cyber arms race to heel. **BOOKER PRIZE FINALIST** • Based on a true event, this novel is “a blues song cut straight from the heart ... about the unjust death of an innocent Black man caught up in a corrupt system” (Walter Mosley, best-selling author of *Devil in a Blue Dress*). In Cardiff, Wales in 1952, Mahmood Mattan, a young Somali sailor, is accused of a crime he did not commit: the brutal killing of Violet Volacki, a shopkeeper from Tiger Bay. At first, Mahmood believes he can ignore the fingers pointing his way; he may be a gambler and a petty thief, but he is no murderer. He is a father of three, secure in his innocence and his belief in British justice. But as the trial draws closer, his prospect for freedom dwindles. Now, Mahmood must stage a terrifying fight for his life, with all the chips stacked against him: a shoddy investigation, an inhumane legal system, and, most evidently, pervasive and deep-rooted racism at every step. Under the shadow of the hangman's noose, Mahmood begins to realize that even the truth may not be enough to save him. A haunting tale of miscarried justice, this book offers a chilling look at the dark corners of our humanity. The annual revenue of Koch Industries is bigger than that of Goldman Sachs, Facebook, and US Steel combined. Koch is everywhere: from the fertilizers that make our food to the chemicals that make our pipes to the synthetics that make our carpets and diapers to the Wall Street trading in all these commodities. But few people know much about Koch Industries and that’s because the billionaire Koch brothers have wanted it that way. For five decades, CEO Charles Koch has kept Koch Industries quietly operating in deepest secrecy, with a view toward very, very long-term profits. He’s a genius businessman: patient with earnings, able to learn from his mistakes, determined that his employees develop a reverence for free-market ruthlessness, and a master disrupter. These strategies made him and his brother David together richer than Bill Gates. But there’s another side to this story. If you want to understand how we killed the unions in this country, how we widened the income divide, stalled progress on climate change, and how our corporations bought the influence industry, all you have to do is read this book. Seven years in the making, *Kochland* “is a dazzling feat of investigative reporting and epic narrative writing, a tour de force that takes the reader deep inside the rise of a vastly powerful family corporation that has come to influence American workers, markets, elections, and the very ideas debated in our public square. Leonard’s work is fair and meticulous, even as it reveals the Kochs as industrial Citizens Kane of our time” (Steve Coll, Pulitzer Prize–winning author of *Private Empire*). The astrobiologist Theo Byrne searches for life throughout the cosmos while single-handedly raising his unusual nine-year-old, Robin, following the death of his wife. Robin is a warm, kind boy who spends hours painting elaborate pictures of endangered animals. He’s also about to be expelled from third grade for smashing his friend in the face. As his son grows more troubled, Theo hopes to keep him off psychoactive drugs. He learns of an experimental neurofeedback treatment to bolster Robin’s emotional control, one that involves training the boy on the recorded patterns of his mother’s brain... With its soaring descriptions of the natural world, its tantalizing vision of life beyond, and its account of a father and son’s ferocious love, *Bewilderment* marks Richard Powers’s most intimate and moving novel. At its heart lies the question: How can we tell our children the truth about this beautiful, imperiled planet? WINNER OF THE EDWARD STANFORD AWARD FOR OUTSTANDING CONTRIBUTION TO TRAVEL WRITING 2020 The master of contemporary travel writing, Paul Theroux, immerses himself in the beautiful and troubled heart of modern Mexico. Nogales is a border town caught between Mexico and the United States of America. A forty-foot steel fence runs through its centre, separating the prosperous US side from the impoverished Mexican side. It is a fascinating site of tension, now more than ever, as the town fills with hopeful border crossers and the deportees who have been caught and brought back. And it is here that Paul Theroux will begin his journey into the culturally rich but troubled heart of modern Mexico. Moving through the deserts just south of the Arizona border, Theroux finds a place brimming with charm, yet visibly marked by both the US border patrol looming to the north and mounting discord from within. Attending local language and culinary schools, driving through the country and meeting its people, Paul Theroux gets under the skin of Mexico. From

After being rescued as infants from a sinking ocean liner in 1914, Marian and Jamie Graves are raised by their dissolute uncle in Missoula, Montana. There-- after encountering a pair of barnstorming pilots passing through town in beat-up biplanes--Marian commences her lifelong love affair with flight. At fourteen she drops out of school and finds an unexpected and dangerous patron in a wealthy bootlegger who provides a plane and subsidizes her lessons, an arrangement that will haunt her for the rest of her life, even as it allows her to fulfill her destiny: circumnavigating the globe by flying over the North and South Poles. A century later, Hadley Baxter is cast to play Marian in a film that centers on Marian's disappearance in Antarctica. Vibrant, canny, disgusted with the claustrophobia of Hollywood, Hadley is eager to redefine herself after a romantic film franchise has imprisoned her in the grip of cult celebrity. Her immersion into the character of Marian unfolds, thrillingly, alongside Marian's own story, as the two women's fates--and their hunger for self-determination in vastly different geographies and times--collide. Epic and emotional, meticulously researched and gloriously told, *Great Circle* is a monumental work of art, and a tremendous leap forward for the prodigiously gifted Maggie Shipstead. Elmet is a marvellous achievement' TLS 'Pastoral idyll, political exposé, cosy family saga and horror tale, it reads like a traditional children's story that turns into a gangster film: Hansel and Gretel meets The Godfather' Sunday Times Daniel is heading north. He is looking for someone. The simplicity of his early life with Daddy and Cathy has turned menacing and fearful. They lived apart in the house that Daddy built for them in the woods with his bare hands. They foraged and hunted. Cathy was more like their father: fierce and full of simmering anger. Daniel was more like their mother: gentle and kind. Sometimes, their father disappeared, and would return with a rage in his eyes. But when he was at home, he was at peace. He told them that the little copse in Elmet was theirs alone. But that wasn't true. Local men, greedy and watchful, began to circle like vultures. All the while, the terrible violence in Daddy grew. Brutal and beautiful in equal measure, Elmet is a compelling portrayal of a family living on the fringes of contemporary society, as well as a gripping exploration of the disturbing actions people are capable of when pushed to their limits. The cottage they love, and the security it offered, is taken back by their landlord, exposing the twins to harsh truths and even harsher realities. Seeing a new future, Julius becomes torn between the loyalty he feels towards his sister and his desire for independence, while Jeanie struggles to find work and a home for them both. And just when it seems there might be a way forward, a series of startling secrets from their mother's past come to the surface, forcing the twins to question who they are, and everything they know of their family's history. author Claire Fuller masterfully builds a tale of sacrifice and hope, of homelessness and hardship, of love and survival, in which two marginalized and remarkable people uncover long-held family secrets and, in their own way, repair, recover, and begin again. Epic in scope, ambitious and astonishingly good, The Tolstoy Estate proclaims Steven Conte as one of Australia's finest writers. From the winner of the inaugural Prime Minister's Literary Award, Steven Conte, comes a powerful, densely rich and deeply affecting novel of love, war and literature 'Grave, moving, engaging ... full of the flash and fire of dramatic incident, but also full of real feeling, humour and poignancy, and equipped with plenty of panache ... It deserves the widest possible readership.' The Saturday Paper In the first year of the doomed German invasion of Russia in WWII, a German military doctor, Paul Bauer, is assigned to establish a field hospital at Yasnaya Polyana - the former grand estate of Count Leo Tolstoy, the author of the classic War and Peace. There he encounters a hostile aristocratic Russian woman, Katerina Trubetskaya, a writer who has been left in charge of the estate. But even as a tentative friendship develops between them, Bauer's hostile and arrogant commanding officer, Julius Metz, becomes erratic and unhinged as the war turns against the Germans. Over the course of six weeks, in the terrible winter of 1941, everything starts to unravel... From the critically acclaimed and award-winning author, Steven Conte, The Tolstoy Estate is ambitious, accomplished and astonishingly good: an engrossing, intense and compelling exploration of the horror and brutality of conflict, and the moral, emotional, physical and intellectual limits that people reach in war time. It is also a poignant, bittersweet love story - and, most movingly, a novel that explores the notion that literature can still be a potent force for good in our world. The news arrives on the heels of an email from Anjum, an impassioned yet aloof activist Krishnan fell in love with years before while living in Delhi, stirring old memories and desires for a world he left behind. As Krishan makes the long journey by train from Colombo into the war-torn Northern Province for Rani's funeral, so begins an astonishing passage into the innermost reaches of a country. At once a powerful meditation on absence and longing, as well as an unsparing account of the legacy of Sri Lanka's thirty-year civil war, this procession to a pyre "at the end of the earth" lays bare the imprints of an island's past, the unattainable distances between who we are and what we seek. Written with precision and grace, Anuk Arudpragasam's masterful novel is an attempt to come to terms with life in the wake of devastation, and a poignant memorial for those lost and those still living. **FINALIST FOR THE 2021 BOOKER PRIZE & A NEW YORK TIMES TOP 10 BOOK OF 2021 WINNER OF THE DYLAN THOMAS PRIZE** "A book that reads like a prose poem, at once sublime, profane, intimate, philosophical, witty and, eventually, deeply moving." —New York Times Book Review, Editors' Choice "Wow. I can't remember the last time I laughed so much reading a book. What an inventive and startling writer...I'm so glad I read this. I really think this book is remarkable." —David Sedaris From "a formidably gifted writer" (The New York Times Book Review), a book that asks: Is there life after the internet? As this urgent, genre-defying book opens, a woman who has recently been elevated to prominence for her social media posts travels around the world to meet her adoring fans. She is overwhelmed by navigating the new language and etiquette of what she terms "the portal," where she grapples with an unshakable conviction that a vast chorus of voices is now dictating her thoughts. When existential threats—from climate change and economic precariousness to the rise of an unnamed dictator and an epidemic of loneliness—begin to loom, she posts her way deeper into the portal's void. An avalanche of images, details, and references accumulate to form a landscape that is post-sense, post-irony, post-everything. "Are we in hell?" the people of the portal ask themselves. "Are we all just going to keep doing this until we die?" Suddenly, two texts from her mother pierce the fray: "Something has gone wrong," and "How soon can you get here?" As real life and its stakes collide with the increasingly absurd antics of the portal, the woman confronts a world that seems to contain both an abundance of proof that there is goodness, empathy, and justice in the universe, and a deluge of evidence to the contrary. Fragmentary and omniscient, incisive and sincere, *No One Is Talking About This* is at once a love letter to the endless scroll and a profound, modern meditation on love, language, and human connection from a singular voice in American literature. *Thinking About Human Memory* provides a novel analytical approach to understanding memory that considers the goals of the memory task, the cues and information available, the opportunity to learn, and interference from irrelevant information (noise). Each of the five chapters describing this approach introduces historical ideas and demonstrates how current thinking both differs from and is derived from them. These chapters also contain analyses of current problems designed to demonstrate the power of the approach. In a subsequent chapter, the authors discuss how memory is controlled by the environment, by others, and by ourselves, and then apply their insights to the problem solving of children, our hominin ancestors, and scrub jays. Finally, the questions of how to define episodic memory and how to investigate phylogenetic and developmental changes in memory are addressed. This book will appeal to memory researchers, including applied researchers, and advanced students. **SHORTLISTED FOR THE 2019 BOOKER PRIZE** Baking a multitude of tarts tatin for local restaurants, an Ohio housewife contemplates her four kids, husband, cats and chickens. Laboratory facilities are complex, technically sophisticated, and mechanically intensive structures that are expensive to build and to maintain. Hundreds of decisions must be made before and during new construction or renovation that will determine how successfully the facility will function when completed and how successfully it can be maintained once put into service. This book provides guidance on effective approaches for building laboratory facilities in the chemical and biochemical sciences. It contains both basic and laboratory-specific information addressed to the user community—the scientists and administrators who contract with design and construction experts. The book will also be important to the design and construction communities—the architects, laboratory designers, and engineers who will design the facility and the construction personnel who will build it—to help them communicate with the scientific community for whom they build laboratory facilities. A heartbreaking story about a Nigerian poultry farmer who sacrifices everything to win the woman he loves, by Man Booker Finalist and author of *The Fishermen*, Chigozie Obioma. The woman, Ndali, is stopped her in her tracks. Bonded by this night on the bridge, Chinonso and Ndali fall in love. But Ndali is from a wealthy family and struggles to imagine a future near a chicken coop. But when he arrives he discovers there is no place at the school for him, and that he has been utterly duped by the young Nigerian who has made the arrangements... Federal Election Commission* (2010), they elaborated the legal fiction of American corporate personhood in *Santa Clara v. Southern Pacific Railroad* (1886). Yet endowing a non-human entity with certain rights exposed a fundamental philosophical question about the possibility of collective intention. That question extended beyond the law and became essential to modern American literature. This volume offers the first multidisciplinary intellectual history of this story of corporate personhood. The possibility that large collective organizations might mean to act like us, like persons, animated a diverse set of American writers, artists, and theorists of the corporation in the first half of the twentieth century, stimulating a revolution of thought on intention. The ambiguous status of corporate intention provoked conflicting theories of meaning—on the relevance (or not) of authorial intention and the interpretation of collective signs or social forms—still debated today. As law struggled with opposing arguments, modernist creative writers and artists grappled with interrelated questions, albeit under different guises and formal procedures. Combining legal analysis of law reviews, treatises, and case law with literary interpretation of short stories, novels, and poems, this volume analyzes legal philosophers including Oliver Wendell Holmes, Jr., Frederic Maitland, Harold Laski, Maurice Wormser, and creative writers such as Theodore Dreiser, Muriel Rukeyser,

Gertrude Stein, Charles Reznikoff, F. Scott Fitzgerald, and George Schuyler. A Washington Post, NPR, and BuzzFeed Best Book of the Year • Shortlisted for the Booker Prize “More than timely, the novel feels timeless, solid, like a forgotten classic recently resurfaced — a brutal, beguiling fairy tale about humanity. But at its core, *The New Wilderness* is really about motherhood, and about the world we make (or unmake) for our children.” — Washington Post “5 of 5 stars. Gripping, fierce, terrifying examination of what people are capable of when they want to survive in both the best and worst ways. Loved this.”— Roxane Gay via Twitter Margaret Atwood meets Miranda July in this wildly imaginative debut novel of a mother's battle to save her daughter in a world ravaged by climate change; A prescient and suspenseful book from the author of the acclaimed story collection, *Man V. Nature*. Bea's five-year-old daughter, Agnes, is slowly wasting away, consumed by the smog and pollution of the overdeveloped metropolis that most of the population now calls home. If they stay in the city, Agnes will die. There is only one alternative: the Wilderness State, the last swath of untouched, protected land, where people have always been forbidden. Until now. Bea, Agnes, and eighteen others volunteer to live in the Wilderness State, guinea pigs in an experiment to see if humans can exist in nature without destroying it. Living as nomadic hunter-gatherers, they slowly and painfully learn to survive in an unpredictable, dangerous land, bickering and battling for power and control as they betray and save one another. But as Agnes embraces the wild freedom of this new existence, Bea realizes that saving her daughter's life means losing her in a different way. The farther they get from civilization, the more their bond is tested in astonishing and heartbreaking ways. At once a blazing lament of our contempt for nature and a deeply humane portrayal of motherhood and what it means to be human, *The New Wilderness* is an extraordinary novel from a one-of-a-kind literary force. “So delicately calibrated and precisely beautiful that one might not immediately sense the sledgehammer of pain building inside this book. And I mean that in the best way. What powerful tension and depth this provides!”—Aimee Bender Fourteen-year-old Linda lives with her parents in the beautiful, austere woods of northern Minnesota, where their nearly abandoned commune stands as a last vestige of a lost counter-culture world.
